## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 25-26, 28-33, 35-40, 42-43, 45-61, 63-69 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shindo of record for reasons of record.

The Shindo patent discloses the claimed pure cobalt sputtering targets as claimed (see abstract and col. 2, line 8 to col. 4, line 15). The reference further discloses ranges of the impurities, which encompass the claimed ranges (see abstract).

The invention as a whole would have been obvious to one having ordinary skill in the art at the time the invention was made, because it has been well settled that product

claims with numerical ranges which overlap prior art ranges would have been obvious under 35 USC 103. *In re Wertheim* 191 USPQ 90 (CCPA 1976). Furthermore, it has further been well settled that a product, which differs from the prior art product only in purity, is obvious except when the pure product possesses unexpected properties not possessed by the impure one. (emphasis added) *Ex parte Gray* 10 USPQ 2d 1922, 1925 (BPAI 1989); *Ex parte Windhaus* 15 USPQ 45; *In re Mertz* 38 USPQ 143.
